Hardest ALFALFA SEED
Perennial Pasture GRASSES
FIELD and GARDEN SEED
NURSERY STOCK

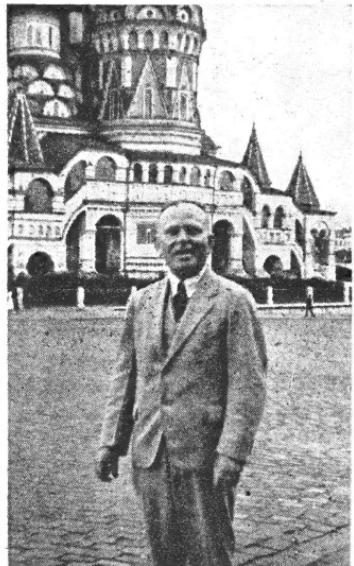

SAM H. BOBER

NEWELL, SOUTH DAKOTA

Cossack Alfalfa, the greatest manufacturer of meat, milk and wool, yields large hay crop

FOR 1942 . . .

SAM H. BOBER in front of the Church of St. Basil, Moscow, Russia, where we went in search of new hardy grasses and legumes just before the outbreak of the war.

Reference: First National Bank of the Black Hills.

We have something better to offer you in seed to make it worth your while to join our growing list of customers from every part of our great country. In this little book you will find the best yielding and hardest alfalfa, grasses, and field seeds, that have proven their superior hardiness and yielding ability. You not only buy hardy seeds, but you also buy at fair prices and you generally pay less for seed items that you purchase from us than you would pay elsewhere.

We advise that you order your seed early this year. The 1941 seed crop was short and prices are likely to be higher as the season advances. This is particularly true for alfalfa, grass seed and some garden seed items.

Wishing you and yours health and happiness for 1942, and assuring you of my cooperation at all times, I am

Sincerely,

SAM H. BOBER

TERMS OF SALE AND SHIPMENT

Payment: Cash in full with order. Money order, bank draft or check on good bank. We ship promptly on receipt of your order. All items are priced f.o.b. Newell except garden seeds, which are prepaid.

QUICK DELIVERY

Newell is in Butte County, on the northern foothills of the Black Hills, about 3,000 feet above sea level, about 30 miles from Montana line. We ship on the C., N. W. and Milwaukee Railroads and with the Buckingham and Wilson Trucking Companies, and connecting with other lines.

Let Me Help You with Your Problem

Our success is wrapped up with the progress of our customers, combined with their faith in our ability to serve them efficiently and honestly.

Write us a letter about your problem. We will try to help you. Our agricultural training, nine years in charge of livestock pasturing experiments at the Government Experiment Station, twenty years practical management of my own 3,000 acres of farm land and a lifetime study of seed will help us give you good practical advice.

Many seed items will be scarce and higher priced as the season advances. Save money by ordering early. It will also help us to fill your order before the rush is on.

PASTURE A—The King of Pasture Mixtures

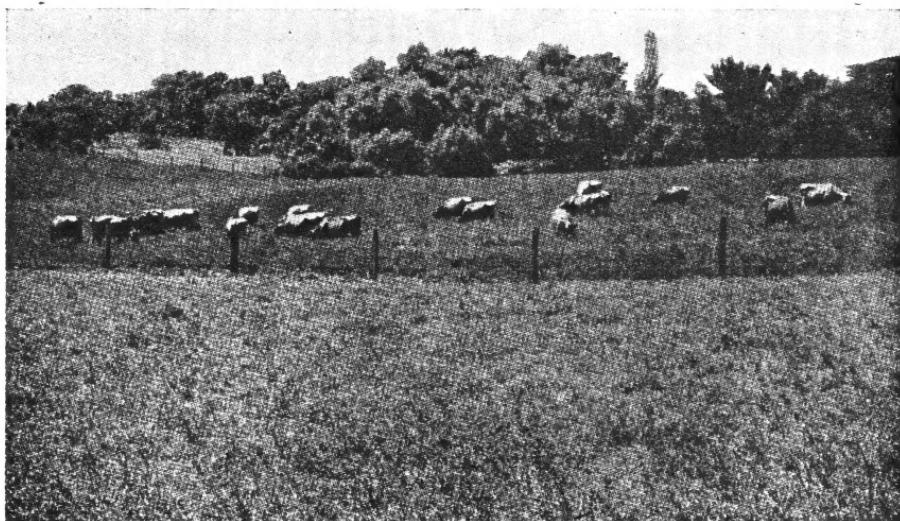

A most practical life-long pasture and hay mixture composed of equal parts of Smooth Bromus grass, Cossack alfalfa, wheatgrass and ryegrass. Cattle and sheep are fond of it. Its great value is that it will grow well on poor land, but naturally the better the soil the better it will grow. **It has two to three times the carrying capacity of ordinary pastures.** It is most valuable in withstanding the most rigorous test of heavy grazing and yields heavy crops of hay, relished by, and highly nutritious for all livestock.

YEAR AROUND PASTURE

Here is a pasture that comes up two weeks earlier every spring and stays green later in the fall than other pastures, and in winter months the wheatgrass part of the pasture can be grazed.

This pasture mixture should be planted at the rate of 12 to 15 pounds per acre, about one-half inch deep, early in the spring on firm land; stubble land is good. Order early, we will ship promptly and you plant it early.

Pasture A Mixture: 25 lbs. \$6.00; 50 lbs. \$11.75; 100 lbs. \$22.50

The stockman's cheapest and most valuable crop.

Pasture A Mixture is well adapted to alternate grazing. The cattle have just been moved from the field in the foreground to the recovered pasture on the other side of the fence.

The Moral is—PLANT GRASS

A good Indian once said, to the accompaniment of grunts and growls: "White man crazy. Make big tepee. Plow hill. Water wash; wind blow soil. Grass gone, land gone, door gone, window gone; whole place gone to hell. Buck gone. Squaw, too. Papoose gone. No chuck-away, no pig, no corn, no cow, no hay, no pony. Indian no plow land. Keep grass. Buffalo eat. Indian eat buffalo. Hide make tepee, make moccasin. Indian no make terrace, no build dam, no give damn. All time eat. No hunt job, not hitch-hike, no ask relief. No shoot pig. Great Spirit make grass. Indian no waste anything. Indian no work. White man heap loco."

PROF. HANSEN'S SIBERIAN COSSACK ALFALFA

Grows in Every State in the Union

The Most Profitable Crop You Can Grow

Farmers of the prairie states are planting more Cossack Alfalfa each year. Because—It produces more and better hay than any other alfalfa. It makes better pasture, is more drought resistant because of its spreading root system. It will withstand the most severe winter weather without injury.

ASIATIC BLOOD TURNS THE TRICK

In a three-year trial at the leading mid-western state experimental station, Cossack alfalfa yielded more than twice as much per acre than northwestern and five times as much hay as southwestern alfalfa.

LESS SEED MORE HAY PER ACRE

You can secure a stand with two pounds less seed per acre of our Siberian Cossack alfalfa, because this hardiest alfalfa is a bushier plant and produces more and finer stemmed alfalfa hay per acre than other strains.

COSSACK ALFALFA SEED IS CHEAPER

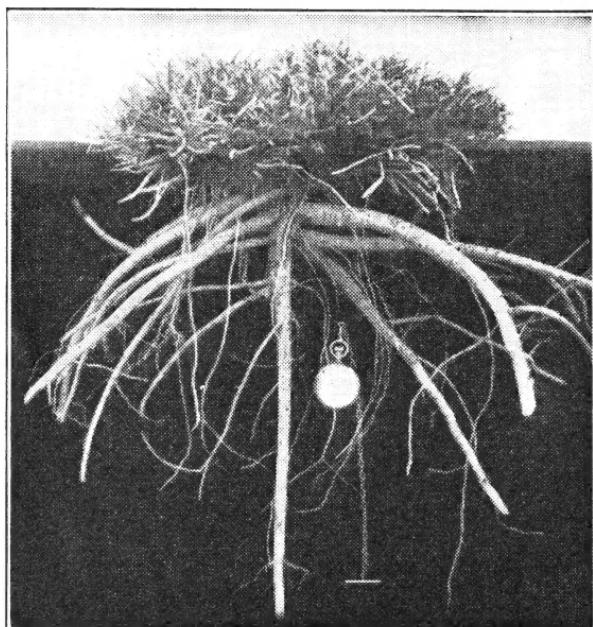

Cossack alfalfa seed costs a few pennies more, but is cheaper than any other alfalfa in the long run. It is harder, longer lived and best yielding. Most prominent farmers and stockmen in every state recommend it. The purity is 99.5 per cent.

Dollar for dollar your best alfalfa buy.

10 lbs. \$3.95; 30 lbs. \$11.30; 60 lbs. \$21.90; 100 lbs. \$36.50

Prof. N. E. Hansen and a Single Plant of Cossack Alfalfa

FREE INOCULATION

of alfalfa seed if order is received before February 25th, with Legume-Aid bacteria, to help you secure a more productive field.

Showing double root system of three year old Cossack alfalfa, also the stooling habit above the crown, which makes bushier, finer stemmed and immense yields of quality hay.

COSSACK The World's Finest Alfalfa

Of First Importance to You Is Root Strength for Winter Hardiness, Long Life, and Best Yield Per Acre.

LADAK ALFALFA

Originated in the very high mountainous section of India. It has proved very hardy and drought resistant and it is also wilt resistant. The supply of this seed is very limited. 99.5 per cent purity.

10 lbs. \$4.20; 30 lbs. \$12.30; 60 lbs. \$24.00; 100 lbs. \$39.50

LADAK AND COSSACK ALFALFA MIXED

For sections of country where wilt disease bothers alfalfa we recommend this mixture composed of half Ladak and half Cossack alfalfa for resistance to disease and at the same time high yielding ability of hardy alfalfa. 99.5 per cent purity.

10 lbs. \$4.00; 30 lbs. \$11.80; 60 lbs. \$23.00; 100 lbs. \$37.80

BLACK HILLS IMPROVED GRIMM ALFALFA

Improved through selection and breeding by Prof. Wheeler and Dillman on the Government Station here and at Brookings. As a result of this work we have a Grimm alfalfa here that shows a decided superiority over the parent stock from which this strain has been developed. 99.5 per cent purity.

10 lbs. \$3.80; 30 lbs. \$10.95; 60 lbs. \$21.30; 100 lbs. \$35.00

DAKOTA NO. 12 ALFALFA

A native of the dry land in the Black Hills of Dakota. More drought resisting, harder and better yielder than ordinary northwestern alfalfa. 99 per cent pure, free from noxious weeds.

10 lbs. \$3.70; 30 lbs. \$10.65; 60 lbs. \$20.70; 100 lbs. \$34.00

FARM BELT ALFALFA

When cleaning Cossack, Grimm, and Dakota 12 alfalfa we found some lots not quite as bright colored or plump as the rest. These are put into one lot, well cleaned, and will do everything for you that the higher priced seed will do. No noxious weed seeds. 98 per cent purity, and the germination is good. There is a substantial saving in the price.

30 lbs. \$9.75; 60 lbs. \$18.90; 100 lbs. \$31.00; 300 lbs. \$91.50

ECONOMY ALFALFA

We have second grade alfalfa seed from the several hardy varieties, free from noxious weeds. This seed is not as large or as good looking as the higher priced lots. The germination is slightly lower, but this is made up by the many more seed per pound. The low price will enable everyone to plant hardy northern grown alfalfa which will produce good crops of alfalfa hay.

30 lbs. \$9.00; 60 lbs. \$17.70; 100 lbs. \$27.00; 300 lbs. \$79.50

NO. 2-B NORTHERN ALFALFA

95 Per Cent Purity; \$13.20 per bu.

ALFALFA SEED will be INOCULATED FREE on all orders received BEFORE FEBRUARY 25th.

Former President and Mrs. Coolidge inspecting a dryland alfalfa field while on vacation here in 1927. Sam Bober's Hardy Alfalfa Seed is planted on the Coolidge's farm in Vermont.

Field of Crested Wheat Grass grown in rows on dry land for seed

CRESTED WHEAT GRASS

The hardiest and most drought resistant, long lived perennial bunch grass, related to Western Wheatgrass, introduced by Professor N. E. Hansen of our South Dakota State College who found it in Siberia, from where he also introduced Siberian Cossack Alfalfa.

IMPROVED FORAGE TYPE of Crested Wheatgrass is finer stemmed and possesses 10 per cent more leaf and is definitely superior to the standard types. It becomes green in the spring earlier than other grasses and stays green later in the fall. It produces twice as much pasture and hay of high palatability and nutritive value as native grass. Produces twice as much beef, mutton and wool and shows no bad effect from heavy grazing. Broadcast 10 to 12 lbs. per acre. It has the ability to grow in low temperatures and starts growing earlier. Every farmer and rancher should plant this grass and do it early in the season. The very best top quality seed of the heavier yielding Forage Type strain:

10 lbs. \$2.55; 25 lbs. \$5.60; 50 lbs. \$11.00; 100 lbs. \$21.50 including bags.

**No. 1 grade Standard Crested Wheatgrass: 10 lbs. \$2.20; 25 lbs. \$4.75;
50 lbs. \$9.25; 100 lbs. \$18.00**

New ALPHA Sweet Clover (ALFALFA-LIKE)

More Hay, More Pasture, More Fertility, More Seed

10 lbs. \$2.30; 30 lbs. \$6.60; 60 lbs. \$12.60; 100 lbs. \$20.50

BEST NORTHERN WHITE SWEET CLOVER SEED

10 lbs. \$1.40; 30 lbs. \$3.90; 60 lbs. \$7.20; 100 lbs. \$11.75

BEST NORTHERN YELLOW DWARF SWEET CLOVER

10 lbs. \$1.50; 30 lbs. \$4.20; 60 lbs. \$7.80; 100 lbs. \$12.50

WESTERN WHEAT GRASS

The Year Around Pasture Grass for Western Dry Land

A most drought resistant, year-around permanent pasture and hay plant. Unlike other grasses that die down in the fall with the first frost, this wonderful grass is not affected and furnishes pasture winter months as well as in the spring and summer. Once started it lasts a lifetime. It is a runner grass and once started will spread by sending shoots underground. Its feeding value is greater than most other grasses. Stands 120 degrees Fahrenheit in the summer and 40 below zero freezing in the winter without apparent injury. Prefers clay soils. Plant 12 pounds per acre on firm ground and cover lightly.

No. 1 Grade: 10 lbs. \$2.75; 25 lbs. \$6.10; 50 lbs. \$11.75; 100 lbs. \$22.50

Buy early and plant early

PLANT BLUE GRAMA GRASS ON DRY RANGE

The wonderful short grass of the upland prairies. Only occasionally does it produce good seed crop, but we have a small supply of excellent seed this year. It is best scattered on the surface in the spring. Prices:

1 lb. 40c; 10 lbs. \$3.00; 25 lbs. \$7.00; 50 lbs. \$13.75; 100 lbs. \$27.00

BEST NORTHERN SMOOTH BROME GRASS

10 lbs. \$2.60; 25 lbs. \$5.50; 50 lbs. \$10.75; 100 lbs. \$21.00

QUALITY RED TOP GRASS SEED

10 lbs. \$1.90; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.50

NORTHERN GROWN TIMOTHY SEED

10 lbs. \$1.60; 25 lbs. \$3.70; 50 lbs. \$7.00; 100 lbs. \$13.50

EXTRA FANCY QUALITY BLUE GRASS SEED

10 lbs. \$2.75; 25 lbs. \$6.25; 50 lbs. \$12.25; 100 lbs. \$24.00

DOMESTIC RYEGRASS FOR EARLY PASTURE

10 lbs. \$1.50; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00

DWARF ESSEX RAPE SEED

For Sheep and Pig Pasture

1 lb. 30c; 5 lbs. \$1.40; 10 lbs. \$2.70; 25 lbs. \$6.50

ROSEN RYE

For Quick Pasture

If you want a real quick pasture, plant Rosen Rye early in the spring at the rate of a bushel and a half per acre. This will furnish pasture until about the latter part of July. If you want to make all summer pasture out of it add eight pounds of Yellow Sweet Clover, which will also furnish pasture the following year. Instead of Sweet Clover you may add ten pounds Ryegrass seed per acre to furnish pasture for balance of season or about two tons leafy hay per acre.

Rosen Rye: 1 bushel \$1.10; 5 bushels \$5.00; 10 bushels \$9.50

Domestic Ryegrass: 10 lbs. \$1.50; 100 lbs. \$12.00

Weatherproof and Permanent Pastures for Dry Range

That stand severe below zero freezing and dry hot summer temperatures without material injury.

Recommended Legume and Grass Seed Mixtures for Western and Southwestern States.

NO. 1 PASTURE MIXTURE

4 lbs. Crested Wheatgrass
2 lbs. Western Wheatgrass
2 lbs. Domestic Ryegrass
2 lbs. Yellow Sweetclover

25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.50

NO. 2 PASTURE MIXTURE

2 lbs. Crested Wheatgrass
2 lbs. Western Wheatgrass
2 lbs. Grama Grass
2 lbs. Domestic Ryegrass
.2 lbs. Yellow Sweetclover

25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00

The above mixtures greatly increase the production and quality of feed on the western range, and are relished by all livestock.

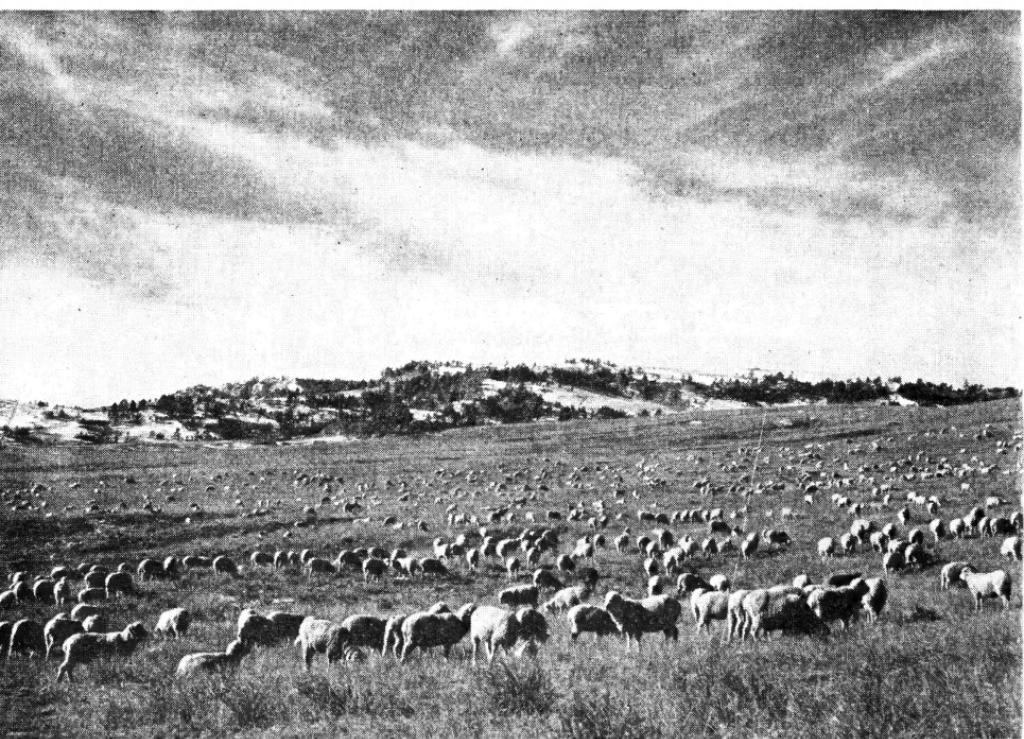

Photo by the Black Hills Studio

Wheatgrass is not only the most profitable for beef cattle but is also the best year round permanent pasture for production of wool and mutton

MILLET

PROF. HANSON'S PROSO GRAIN MILLET

An introduction from Siberia, yields up to fifty to eighty bushels per acre, and it takes only 60 or 70 days to mature a seed crop. This shiny red or white seed makes WONDERFUL CHICKEN FEED or can be ground and fed to any kind of livestock. Proso is not only a very heavy yielder of grain, but ripens while the leaves are still green. You can harvest your grain crop and still have a good quality hay.

10 lbs. 60c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.25; 500 lbs. \$15.75

A field of Proso that yielded 75 bushels of grain per acre

HAY MILLETS

KURSK SIBERIAN—A very fine variety of millet, extremely hardy and withstands drouth. The plant shows a remarkable stooling habit, as many as 30 to 40 stalks frequently grown from one seed.

Prices: 50 lbs. \$2.25; 100 lbs. \$4.00; 300 lbs. \$11.50

WHITE WONDER MILLET—A wonderful producer of hay and exceedingly valuable as a food for dairy cattle. Like other millets it has a very low water requirement and is an excellent dry land crop.

Prices: 50 lbs. \$2.15; 100 lbs. \$4.00; 300 lbs. \$11.50

GERMAN MILLET—It grows from three to six feet tall, and makes excellent hay for dairy cattle. The seed is very good chicken feed. Few grasses or plants will make the enormous yields of hay and seed produced by German Millet. Four or five tons of hay and 60 or 70 bushels of seed per acre have been reported. It may be planted as late as July 1st and still mature. Plant 25 pounds per acre.

Prices: 50 lbs. \$2.00; 100 lbs. \$3.50; 300 lbs. \$10.00

EARLY 100-110 DAY HYBRID SEED CORN

Edge drop. Yields 20 to 50 per cent more per acre than any other corn we have tried 1.80 3.40 6.50 32.00

DUST YOUR SEED CORN WITH NEW IMPROVED SEMESAN JR.

Increase the yield of your corn from three to five bushels per acre. Use New Improved Semesan Jr. for insurance against disease and unfavorable weather. 80c per lb., will treat seed corn for 35 acres.

BOBER'S CORN IS COLD RESISTANT

Can be planted earlier in the spring. Matures earlier in the fall. Escapes early frost and lessens the danger of soft corn. Highest yielding ability bred into it. Drought and heat resistant.

Here on the northern foothills of the Black Hills we produce the hardest and best yielding Alfalfa and Grass seed in the country. The severe climatic conditions are also responsible for more vigor in our seed corn and seed grain.

BARLEY THAT EVADES DROUGHT

NEW SPARTAN BARLEY

Ripens Ahead of Grasshoppers and Drought

The highest yielding, earliest maturing variety, a cross of Michigan barbless and two-row varieties, with strong straw which prevents lodging. **It made 70 bushels per acre on a 60-acre field**, of the heaviest, most beautiful barley. It is smooth bearded, easier to handle and equals corn in feeding value.

You can plant it early in March because it is cold resistant. Ripens before hot and dry winds in July injure other varieties. A customer writes, "This seed did not cost me anything. The extra yield above the barley I had been using more than paid for the seed."

50 lbs. \$1.10; 100 lbs. \$2.00; 500 lbs. \$9.65

TREBI BARLEY

This Canadian six-row barley yields the best under irrigation or in sections where there is more than 20 inches annual rainfall. This is not smooth bearded like the Spartan Barley but it does have just as big fat grain kernels. No. 1 quality seed.

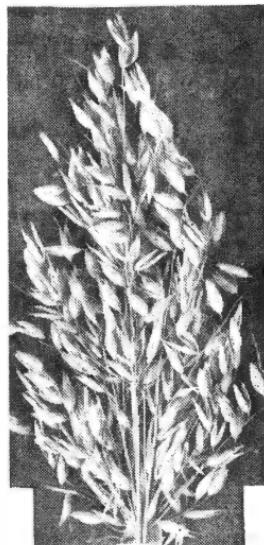

50 lbs. 90c; 100 lbs. \$1.75; 500 lbs. \$8.50

WINTER OATS

117 bushels per acre on dry land in 1941. This new introduction of earliest maturing oats has now been tried three years and each year it yielded 30 or 50 per cent more oats per acre than the next best variety alongside of it. These oats are called Winter Oats because they are cold resistant and are planted as early as spring wheat, making their growth during the most favorable moisture and weather conditions.

Any thinking man who can see, read, and count for himself will order these seed oats and order them real early.

1 bu. 75c; 3 bu. \$2.15; 5 bu. \$3.45; 10 bu. \$6.75

GOPHER OATS

Winter Oats

A white seeded early maturing oat. About 10 days later than the Winter Oats. Farmers from eastern states order these oats from us year after year because these northern oats outyield their native varieties. Free from wild oats and other noxious weeds.

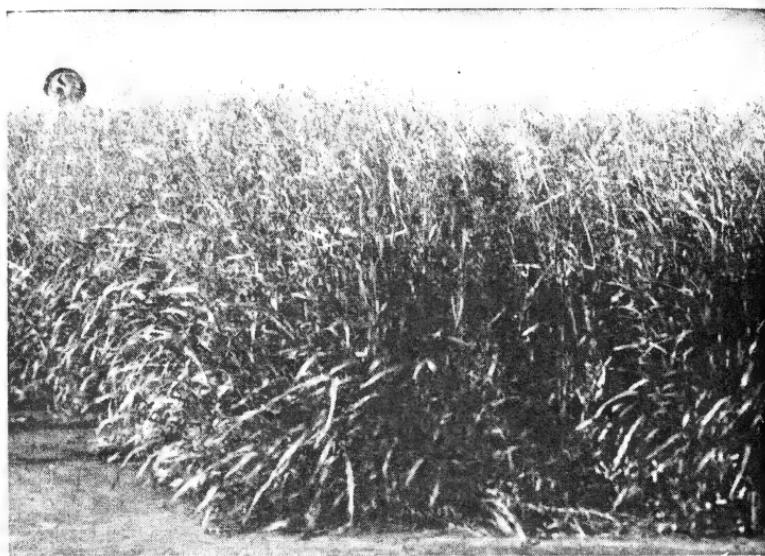

1 bu. 70c; 3 bu. \$2.05; 5 bu. \$3.30; 10 bu. \$6.50

NEW NAKOTA HULL-LESS OATS

Released by the South Dakota State College

Nakota is entirely hull-less, threshes easily, does not shatter, is medium early. It is both smut and rust resistant and produces well over 60 bushels per acre. A bushel weighing 43 to 45 pounds. The high protein content, minus the objectionable hulls, makes it a perfect feed for promoting growth in humans, in poultry and in young animals. **SEED IS LIMITED.** Not more than 300 pounds to a customer. Order early.

5 lbs. 50c; 10 lbs. 80c; 25 lbs. \$1.50; 50 lbs. \$2.75; 100 lbs. \$4.50

Sudan Grass

SUDAN GRASS

Sudan grass grows rapidly and thrives in the hot dry months when other pastures are least productive. It is, therefore, especially valuable as a supplementary pasture to provide an abundance of feed of good quality during that period of the summer when it is most needed.

Two to three crops during the season which yields three to six tons of cured palatable hay per acre. Will grow on almost every class of soil. Stock of all kinds eat it greedily. On dry upland plant at the rate of 12 pounds of seed per acre. On better land 15 to 25 pounds of seed per acre. Plant when the soil is fully warmed up.

12 lbs. 80c; 25 lbs. \$1.25; 50 lbs. \$2.25; 100 lbs. \$4.00; 300 lbs. \$11.75

NEW IMPROVED TEPARY WHITE BEANS

A Good CASH CROP Anytime—A Real MONEY MAKER in Wartime

The highest yielding, earliest maturing selection by the U. S. Experiment Station of Redfield, S. D. A bushy plant with seeds similar to the navy bean but smaller in size. **Average seed yield for six years is 19½ bushels per acre on dry land**, against an average seed yield of 8 bushels per acre for the navy bean and 11 bushels for the Great Northern field bean. It is not soil depleting.

The improved Tepary is a delicious tasting bean and cooks in half the time required for other beans. The culls and straw may be fed to livestock with profit. Every grocery store, wholesaler, C.C.C. Camp, and Army Post furnishes a market.

Seedbed preparation, planting and cultivation of the Tepary bean are similar to those of field beans or soybeans grown for seed.

10 lbs. \$1.40; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.50

BLUE RIBBON SEED FOR BLUE RIBBON FARMERS

Our Cossack alfalfa and Improved Tepary beans won first for the northwest at the recent International Seed and Grain Show.

NEW LOW-ACID CANE

A New Introduction by the South Dakota State College

Produces a mass of sweet, rich, succulent forage, more nutritious than corn silage. Cattle and sheep eat it right to the very root.

A newly developed strain of Sorghum low in prussic acid; lessens danger of cattle and sheep poisoning.

The way the cattle and sheep go after it proves that they relish this cane, and the gains they are making on it go to prove that it has lots of feed value, too.

It yields 25 to 50 per cent more than other varieties of cane.

10 lbs. 80c; 25 lbs. \$1.40; 50 lbs. \$2.25; 100 lbs. \$4.00, bags included

DAKOTA BLACK AMBER CANE

The earliest and best cane for the North. Grows from 5 to 7 feet tall and matures in 90 days. Stalks very sweet, slender and leafy.

10 lbs. 55c; 50 lbs. \$1.70; 100 lbs. \$3.00

SIXTY-DAY MILO

Grows the size of wheat and can be harvested with a binder, header or combine. It has yielded nearly 100 bushels of grain per acre. In dry years when wheat made two to four bushels this Sixty-day Milo made 35 to 50 bushels grain per acre. Distinctly superior to corn or barley in yield. Plant 6 to 8 pounds per acre in rows, using a cane plate and cultivate.

10 lbs. 65c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00

PLANT FLAX FOR CASH CROP

Bison Flax seed, wilt and rust resistant and highest yielder of all varieties.

**Prices: 1 bu. at \$3.15; 5 bu. at \$3.00;
10 bu. at \$2.90; including bags**

Flax is the very best nurse crop, if you use a nurse crop, for alfalfa and grass seed.

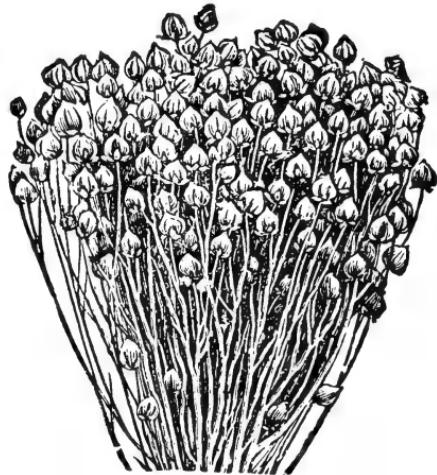

SPRING WHEAT

CERES—Drought and rust resistant. Yields five bushels more per acre and matures earlier than Marquis.

MINDUM—The most rust resisting, drought resisting and highest yielding selection of Durum wheat.

RUBY—Earliest maturing, highest protein, smooth bearded spring wheat. Higher protein brings more money per bushel.

Spring Wheat including bags: 1 bu. \$1.55; 5 bu. \$1.50; 10 bu. at \$1.45 per bu.

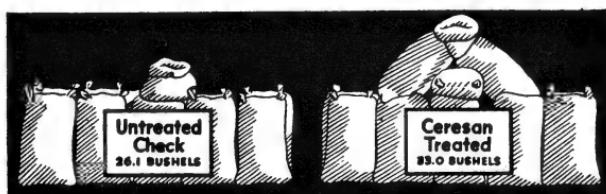

Bison Flax

NEW IMPROVED CERESAN

Checks seed rotting, reduces seedling blight. Controls stinking smut. Increases the yield of wheat, oats, barley and cane, milo and flax.

**75c per lb.,
treats 32 bushels**

GLADIOLUS

Gladiolus

Extra Special Assortment of Large Bulbs—Mixed Colors
Contains 8 to 12 of our best varieties. 12 bulbs, postpaid to you, 50c; 25 bulbs, postpaid to you, \$1.00.

Special Large Size Assortment

Contains 50 to 75 of our best varieties. Selected for a continuous blooming period that will be sure to please you. 100 choice large blooming size bulbs only \$3.00. Packed and delivered free.

PEONIES

Peonies happen to be my favorite perennial. The immense fragrant blossoms put one in mind of oversized fully opened roses as the scent is similar and they have as many colors, but are more friendly in that no thorns tear or scratch the flesh of those who care for them. As easy to plant as potatoes. Three assorted Peony roots, pink, red and white colors for 90c; six assorted Peonies for \$1.50, postpaid.

CLIMBING and RAMBLER ROSES

CLIMBING AMERICAN BEAUTY—(My pick.) Rich carmine; fragrant; early bloomer. Plants heavy two-year-old No. 1 stock. Each, 85c; 3 for \$2.25.

DOROTHY PERKINS—Clear shell pink with flowers borne in clusters; full and double. One of the finest of all climbing roses. Each, 85c; for \$2.25.

CRIMSON RAMBLER—Extremely effective when grown on pillars and trellises. Flowers are produced from ground to tip, in large pyramidal clusters of 30 to 40. Each, 85c; 3 for \$2.25.

SIBERIAN HEDGE ROSES

Fragrant, large beautiful flowers, bloom from June until it freezes. Large bushy plants. Each, 40c; 5 for \$1.80; 10 for \$3.00; 25 for \$6.50.

BOBER'S DROUGHT RESISTANT DAHLIAS

Six choice sorts of many colors and shades for 70c, postpaid; 12 of these tubers for \$1.25, postpaid.

TARTARIAN BUSH HONEYSUCKLE

A Wonderful Importation from Russia

The upright or bush form of the Honeysuckle is noted for the great profusion and fragrance of its flowers. Growing from 8 to 12 feet high, they are extremely suitable for shrubbery clusters and for individual planting purposes. Also very ornamental in a trained hedge, they will stand clipping to any desired shape. Mixed colors, 2 to 3 ft. each, 30c; 10, \$2.80; 50, \$12; 100, \$22. Prepaid.

Large select specimen plants for lawn plantings, 65c each; 3 for \$1.80; 6 for \$3.20.

LILACS

Prices: Common Purple, White or Persian, 50c each; 5 for \$2.00.

RED SNOWBERRY—A very hardy shrub which succeeds anywhere. Coral berries in autumn and winter. 2 to 3 feet, 45c each; 18 to 24 inches, each, 35c.

SPIREA VAN HOUTTEI or BRIDAL VEIL

Hardy everywhere. Large, 50c each; 3 for \$1.25; medium, 35c each; 3 for \$1.00.

ENGLEMANNI IVY

The hardiest of the climbing vines. Clings by means of sudopads to a sheer wall without the aid of lattice work. Each, 50c; 3 for \$1.25.

CARAGANA or SIBERIAN PEA TREE

Valuable alike for trimmed hedge, shelter belt or ornamental shrub. Foliage resembles that of the locust, and a dainty yellow pea-like flower covers the plant in late May or June. 24 inches. 10 for 75c; 25 for \$1.75; 100 for \$5.00.

RUSSIAN OLIVE—The hardiest of the Russian importations. It has small yellow flowers produced abundantly, replaced later by small silvery-white, olive-shaped fruits. When trimmed it makes a beautiful ornamental and when cut back forms a most effective hedge. 24 inches, each, 10c; 10 for 80c; 50, \$3.00; 100, \$5.00.

CHOKE CHERRY

This is one of the best of our ornamental fruit trees. Absolutely hardy anywhere. Always symmetrical, and when in full bloom is a great bank of snow with the added beauty of its nutty woodland fragrance, and later its rich, highly colored purplish-black fruit, grown for fruit jellies and possesses a distinct and pleasing flavor. 3 to 4 feet, 55c each; 5 for \$2.50.

NEW WAYZATA STRAWBERRY PLANTS

This all season strawberry, with the good qualities of the everbearing kinds, is a real money maker. Bearing season of at least three months. Tops the market for its appearance and quality. Here is the very best in Strawberry plants for your money.

25 plants, \$1.00; 50 plants, \$1.75; 100 plants, \$3.00

LATHAM RASPBERRY PLANTS—10 for \$1.00; 25 for \$1.75; 100 for \$4.50.

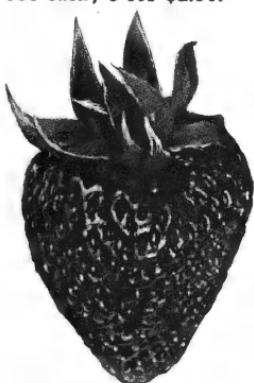

CARRIE GOOSEBERRY PLANTS—Each, 25c; 10 plants, \$2.00; 25 for \$4.50.

BETA GRAPES—Each, 25c; 5 plants, \$1.00; 10, \$1.75.

PERFECTION CURRENTS—Per plant, 40c; 5 for \$1.25; 10 for \$2.40.

VICTORIA RHUBARB—Large roots, \$1.00 per dozen.

WASHINGTON RUST PROOF ASPARAGUS PLANTS—Two year plants, 25 for 85c; \$3.00 per 100.

New Wayzata

VICTORIA RHUBARB

One of the best and largest of the seeded varieties. A heavy bearer, tender and juicy. Large roots, \$1.00 dozen.

THE NEW CHINESE ELM SHADE TREE

A Rapid Grower, Hardy, Healthy and Handsome

According to government report it stood the drought best of any trees. Thrives in any soil and under all conditions. 1. It resists drought and cold. 2. Thrives on poor soils and makes a showing in spite of neglect. 3. Rapid growing. Not uncommon for a 2-foot seedling in the nursery row to become a 10-foot tree in two seasons. 4. Holds foliage until late in fall. We do not advise planting the larger sizes as the 4-foot size is just about right for planting and rapid growth. Trial order, 10 trees 4 ft. high, \$4.00; 5 trees for \$2.35; single trees, 50c each. Not transplanted trees 4 ft. size, 10 for \$2.00; 5 for \$1.20.

Chinese Elm

Put in a Few Evergreens for Winter Effect

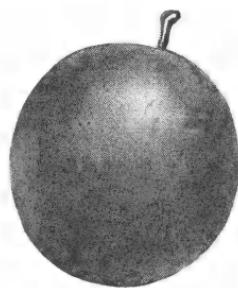

Not balled or burlapped, but twice transplanted and packed carefully. 18-24 in., \$1.55 each; 10 for \$14.00. 30-36 in., \$1.75 each; 10 for \$16.00.

Balled and burlapped in earth, twice transplanted. 18-24 in., \$2.50 each; 10 for \$22.75. 30-36 in., \$3.10 each; 10 for \$28.00. 3 to 4 ft., each \$3.85; 10 for \$17.50.

HARDY PEARS

MENDEL PEAR—Grown without winter protection. A Minnesota product, medium size, sweet and juicy, golden yellow color.

TAIT PEAR—Originated in Canada. Perfectly hardy, a good fruiter and of fine quality. Price, your choice of varieties, 3-4 ft., 85c each; 3 trees, \$2.35.

Waneta Plum

PROF. HANSEN'S MOST FAMOUS PLUMS

For Quickest Return in Fruit

WANETA PLUM—The giant of hardy plums. Up to two inches in diameter. Highly flavored. Richly colored red skin.

TECUMSEH—The most consistent yielder of quality plums. Best record in drought years.

OPATA CHERRY-PLUM—Earliest of all plums. The flesh is a light green color with a purplish red skin. Very productive.

SAPA CHERRY-PLUM—Early, large, productive and hardy. Black purplish flesh is extra fine for eating and wonderful for preserves and jam.

HANSKA PLUM—The superb plum of apricot flavor and fragrance. Very hardy and productive. Highly colored and firm flesh.

EARLY RICHMOND—The earliest of the sour pie cherries. Fruit dark red, medium in size. Tree vigorous and bears young. Does best on upland or sandy soil which is well drained.

OKA CHERRY—Not really a cherry but is a good substitute for a cherry. It is a sand cherry hybrid, a seedling of Champa. Color brighter than Sapa and a black red flesh.

ADAPTED EARLY MATURING APPLES

PROF. HANSEN'S ANOKA APPLE—The wonder Apple, as it usually bears the second year after planting. Very hardy everywhere. Good eating and a heavy producer.

WEALTHY APPLE—The most popular of all early fall apples. Large, bright red, very sweet and fine.

YELLOW TRANSPARENT—Early variety, ripening to a yellow in August. Good eating, being tender and juicy when ripe.

DUCHESS—Old standard hardy summer variety. Large apple streaked with red. Ripens the first of September.

RED BIRD or CRIMSON BEAUTY—Early apple of bright red color and very attractive. Good quality and flavor. Originated in Canada.

McINTOSH RED—Fruit medium to small in size, beautiful crimson. High quality for marketing and home use. Keeps until mid-winter or later.

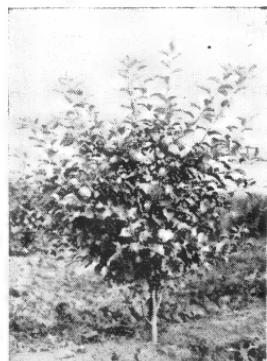

DOLGO CRAB—Originated at South Dakota Experiment Station. Tree hardy, vigorous, upright grower. Fruit medium to small, rich in flavor, bright red color. Fine for pickling or jelly.

WHITNEY CRAB—August to September. The fruit is very large and glossy green, striped with red. The flesh is firm, juicy and pleasant. It is a very heavy yielder and highly prized for cider. Nearly the size of an apple.

PRICES ON APPLES, CRABS AND PLUMS

BLACK HILLS HARDY SEEDS
NEWELL, SOUTH DAKOTA

The **Cyclone** **Seed Sower**

BROADCASTS EVENLY

— SAVES SEED

and other countries have relied on it for sowing clover, timothy, alfalfa, lespedeza, sudan grass, oats wheat or any other seed that is sown broadcast.

CONSTRUCTION—Its well known Double Feed insures a uniform flow of seed. Sloped Feed Board keeps hopper properly filled. Feed adjustment is automatic and starts or stops flow of seed instantly. Distributing Wheel scatters seed evenly—Throws equal amounts to equal distances on each side of operator.

THE SECTIONAL TUBE STYLE “HORN” SEED SOWER

WITH PATENTED BRASS SEED GAUGE

Tube is made in three sections or joints. They assemble like a stove pipe, not like a telescope. Sows perfectly all smooth seeds like alfalfa, clover, timothy lespedeza, etc., any desired amount per acre. You can rely on this seed gauge.

Field of Cossack Alfalfa

IT WORKS WHILE OTHERS SLEEP

Cossack shows the greatest vigor of spring growth of all varieties. It also has a quicker start of new growth after a cutting for a second and third crop while other strains lie dormant awhile.

CROP INSURANCE

Judge wisely, it is better to be safe than sorry. While Cossack alfalfa seed costs slightly more per pound, a little less seed is required per acre to produce a full stand, because of its larger, bushier and leafier plants.

NO FOUL WEEDS

You not only get the hardiest and best yielding ability in our Cossack alfalfa, but you are also safe from noxious weeds such as Quack Grass, Canada Thistle and other troublesome pests. Our seed is free from all foul weeds and complies with your state laws as well as with the Federal Seed Act.

SURVIVAL VALUE

In Cossack alfalfa you have a double value crop. It not only yields the most alfalfa hay per acre but it withstands the worst below zero freezing as well as the hottest and driest summers and it stands pasturing without material injury.

FROM AN ALFALFA CUSTOMER

Dear Mr. Bober:

I am glad to state that the alfalfa seed we obtained from you has made the finest growth of alfalfa that I have ever seen. I have been growing this crop for a good many years, but I am frank to say that we have never obtained the results with any alfalfa equivalent to that obtained from your seed. This is the reason we are using the seed again this year on an increasing number of properties, including one farm in Mississippi, the order for which you have probably received by this time.

Very truly yours,

D. Howard Doane.

BIGGER YIELDS FROM INOCULATION

For better stands of alfalfa and sweet clover and for bigger yields of pasture and hay inoculate your alfalfa and sweet clover with

LEGUME-AID

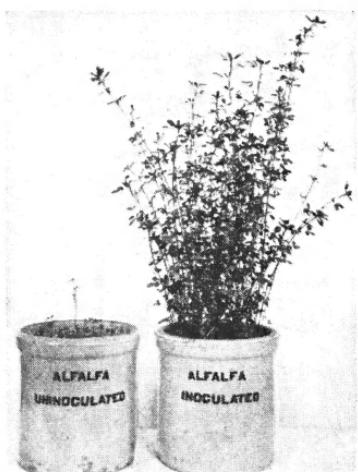

Use Without Water

Living bacteria in a moist charcoal base which adheres to dry seed without the use of water.

SPILL IT over dry seed . . . mix . . . IT STICKS and HANGS ON. IT IS EASY TO USE . . .

It is not necessary to sow LEGUME-AID treated seed immediately.

**1 bu. size, 50c; 2½ bu. size, \$1.00,
prepaid.**

Not Inoculated Inoculated
with
LEGUME-AID

NOTICE

Due to the increased price of replacement stocks of some varieties of seed, prices will be higher as the season advances. Order all your field and garden seeds before FEBRUARY 25th, if possible.

HORMONE-TREATED RICHGREEN LAWN SEED

Hormone Treated seed will increase germination, root and plant growth, doubling results of untreated seed and also increase drought resistance of your lawn.

Sam H. Bober is first to offer this improvement in midwestern states. Bober's Richgreen Lawn Seed is now even better than ever. The very best value in Lawn Grass seed in America.

Hormone-treated Richgreen Lawn Seed. 1 lb. 60c; 3 lbs. \$1.50; 5 lbs. \$2.40, postpaid

ASTORIA BENT GRASS—Highest Quality Seed.
One lb. \$1.00; 5 lbs. \$4.00, postpaid

WHITE LAWN CLOVER—Extra Fancy Seed.
One lb. 90c; 2 lbs. \$1.75; 5 lbs. \$3.80

Practical Drought-Resistant LAWNGRASS *For dry climate regions*

We recommend the following grass seed for lawns in dry land country where water for lawns is not available.

BLUE GRAMA GRASS—Resembles Buffalo grass. A short curly beautiful light green grass. Once established will last a lifetime. Requires no attention at all. Hardly gets tall enough to mow. This seed is best planted in April, at the rate of 1 pound for 400 square feet. **Price: 50c per lb.**

FAIRWAY STRAIN OF CANADIAN CRESTED WHEATGRASS—
A very hardy, leafy grass easy to start if planted real early in the spring because it germinates better in cool, moist weather. Plant at the rate of one pound to 300 square feet. **Price: 40c per lb.**

BOBER'S 30-DAY LAWN GRASS *For a Beautiful Lawn All Season*

Order Bober's "30-Day Lawn Grass" early and sow it as soon as the snow melts away in early spring. Sow one pound to 250 square feet and you will have a well established lawn by early summer. This mixture consists of fine leaved and deep rooted perennial grasses which assures a beautiful rich green lawn thick and free from weeds.

One lb. 45c; 3 lbs. \$1.25; 5 lbs. \$1.95; 10 lbs. \$3.50, postpaid

FREE: A packet of VIGORO Plant Food with a five-pound order if requested.
